COLORY GRADES HIGH AND MARKET STRONG

Best Sale of the Season Was Held Yesterday by Bourbon Company.

HOUSE AVERAGE \$12.29.

Over Million Pounds Sold Since Opening of the Paris Market.

With the color grades considerably higher and the demand for low grades being stronger than at any sale during the season, yesterday's sale at the warehouse of the Bourbon Tobacco Warehouse Co., was by odds the best of the season.

There were a few crops of quality offered, but much of the consignment was of a low grade and the best had green and frozen tips. Demands for the lower grades were much in evidence. A new buyer was in the field representing the T. T. Hamilton Co., of Covington.

Yesterday a total of 194,040 pounds were sold for a total of \$23,853.39, or an average of \$12.29. This indicates that the market is holding its own in face of the low grades that are being put before the buyers.

Since the opening of the local season a total of 1,112,820 pounds have been sold, the consignments being in most instances low and medium grades.

As one of the best markets in the State the Bourbon Tobacco Warehouse Co. ranks among the first. There has never been a time since the opening of the season a year ago, that prices did not hold up as well as any market average considered.

The third sale of this week will be held Saturday and another next Tuesday when the sales will be discontinued until December 30, and after that three sales will be held each week.

The best average of the day yesterday was made on a crop of 2,255 pounds which sold for an average of \$17.06 per hundred pounds. This crop belonged to Mr. A. P. Adair, of near this city. Another crop reached an average of \$16.62, while there were quite a number ranging from \$13 to \$16.32 per hundred.

Growers, as a rule, since the opening of the season in Paris have found it very profitable to consign their tobacco to the local market. The most satisfactory prices are being obtained at each sale and rejections on both the part of the growers and buyers a very few.

Following are a few of the crop averages of the sale yesterday:

E. D. Bell, 11,510 pounds, average	\$16.62 per hundred.
A. P. Adair, 2,255 pounds, average	\$17.06.
Brown & Burris, 6,615 pounds, average	\$16.09.
Clark & Harmon, 8,160 pounds, average	\$16.32.
W. W. Rogers, 3,625 pounds, average	\$13.93.
Well & Corbin, 4,145 pounds, average	\$13.91.
Hall & Woodford, 8,820 pounds, average	\$14.08.
Plummer & McClure, 2,900 pounds, average	\$13.87.
John F. Jones & Mills, 1,295, average	\$14.53.
Aylette Buckner, 3,680 pounds, average	\$13.16.
F. A. Wallis, 4,015 pounds, average	\$13.12.
B. F. Hopkins, 4,600 pounds, average	\$13.24.
Boston & Jones, 5,575 pounds, average	\$13.62.
Wilson & Henry, 3,335 pounds, average	\$13.88.

TUESDAY'S SALE.

The Bourbon Tobacco Warehouse Company sold Tuesday 112,620 pounds of tobacco. The market showed considerable advance on color grades. Low grades are firm at former prices and continue to constitute a majority of the offering.

The following are crop averages: J. F. Wasson, 2,970 pounds; average \$16.02. Brent & Boaz, 3,295 pounds; average \$13.73. Brent & Burke, 10,925 pounds; average \$15.03. Fisher & Shanks, 2,605 pounds; average \$13.34. Thomas & Wilson, 3,345 pounds; average \$12.68.

POLICE TAKE FIFTEEN NEGROES IN A RAID.

Patrolmen McKenney and Link Wednesday raided a resort on Cypress street which is alleged to have been conducted by Lotta Lannum and Will Smith, both negroes, and succeeded in landing 15 behind the bars. The negroes, it is said, had been disturbing the neighborhood for some time and upon complaint, the place was visited by the officers who found the inmates enjoying themselves to the fullest extent. In police court yesterday the following were tried on charges of disorderly conduct: Florence Harris, \$7.50; Clara Belle Tuttle, \$7.50; Rebecca Marks, \$10; Clara Fisher, \$7.50; Virginia Young, \$10; Estelle Shidell, \$12.50; Lotta Lannum, \$17.50; Wm. Bryant, \$7.50; John Williams, \$12.50; Fred Bowden, \$10.00; George Miller, \$7.50; Earl Thomas, \$7.50; Will Smith, \$15.00, and Will Humphreys, \$7.50. It is said that one negro among the number had a quantity of cocaine which he was trying to dispose of to the men and women.

TRAVELING BAGS

KENTUCKY REVENUES AMOUNT TO MILLIONS

W. H. Osborne, Commissioner of Internal Revenue, in his annual report made public Tuesday, shows that the State of Kentucky produced the enormous total of \$35,200,906.44 of internal revenue during the fiscal year ending June 30 last. The collections by districts were as follows: Second, Lawton Reno, \$4,395,948.11; Fifth, Maurice L. Galvin, \$4,135,486.30; Seventh, Timothy A. Field, \$3,788,199.16; Seventh, Harry R. McEldowney, (acting), \$374,137.66; Seventh, Ben Marshall, \$329,676.09; Eighth, Winston W. Wiseman, \$3,317,628.24.

DELICIOUS FRUITS.

Call and see us for your Christmas candy—delicious fruits—and other holiday supplies. J. E. CRAVEN. (x)

DON'T WORRY.

Don't worry about what to give for Christmas. Come in our store and let us suggest and show you some of the most beautiful and acceptable gifts that could be bought. Select what you want and we will lay it aside and deliver when you say. J. T. HINTON.

To-day we Announce our Readiness For

Christmas Business

And in this Announcement We Desire to Tell You that We Have Prepared Wisely and Well.

Our stock is superb—our service complete—and we desire that you inspect carefully every article of interest.

We are displaying this year all that is newest and latest in the *Jeweler's Art*, and have combed the markets carefully to select the cream of styles and designs.

Especially large and varied is our stock of Diamond Mounted *La Valliers* and *Bar Pins*, in platinum and gold, also a beautiful line of *Misses' La Valliers* in solid gold to sell for from \$5 to \$8.50.

We are especially strong on *Sterling Vanities*, *Card Cases* and *Mesh Bags*, in plain, engraved and etched effects. Our *Compartment Vanity Cases* in *Sterling Silver* are the very latest in thin models.

BRACELET WATCHES are now in full sway and you will find here all the newest styles and effects in solid gold, filled and leathers, fitted with the best guaranteed movements in the market.

We are now prepared to display our line of *LADIES' HAND BAGS*, which include the very latest designs from the East—made to conform with the latest dress costumes.

We cordially invite one and all to call and inspect our Holiday stock. BUY EARLY—and avoid the rush. Any article purchased now will be laid aside and held until Christmas at the desire of the purchaser.

GALLEY ONE REPORT OF THE SECRETARY OF AGRICULTURE FOR 1913.

WASHINGTON, D. C., Dec. 15.—David F. Houston, Secretary of Agriculture, to-day published his annual report for the year 1913. The report which contains only 58 pages, differs from previous reports in that, instead of merely reviewing the agricultural situation, it presents in summary many broad economic questions. Throughout the report strong emphasis is placed upon co-operation between the Department of Agriculture and other Federal departments and the State Agricultural agencies to promote co-ordination and eliminate duplication of effort. The keynote is getting the Department's information in all fields more directly and in more valuable form to the people. The following are summarized statements of the more important subjects and recommendations discussed in this report:

The Problem of Production.

Increased tenancy, absentee ownership, soils still depleted and exploited, inadequate business methods, the relative failure to induce a great majority of farmers to apply existing agricultural knowledge, and the suggestions of dependence on foreign nations for food supplies warn us of our shortcomings and incite us to additional efforts to increase production. The report states that there is no ground for thinking that we have yet approximated the limit of our output from the soil, but that we have just begun to attack the problem, and have not reached the end of the pioneer stage, and only in a few localities have developed conditions where reasonably full returns are secured. We have unmistakably reached the period where we must think and plan.

Increases Asked.

Increases in the appropriations for the next fiscal year are recommended as follows:

\$250,860 for extending the work of eradicating animal diseases, feeding and breeding live stock, and for dairying and the enforcement of the meat-inspecting law.

\$45,660 for the introduction and breeding of new plants, the control of plant diseases, and for improving the methods of crop production, especially cereals.

\$143,544 for the classification of agricultural lands and the survey of homesteads in the national forests.

\$60,441 for extending investigations of the handling, shipping and storing of poultry, eggs and fish.

\$24,420 for investigating fertilizer resources, soil fertility and the chemical and physical properties of the soil.

\$71,000 for extending investigations of insects attacking deciduous fruits, cereal and forage crops, and forest trees.

\$90,000 to enforce the migratory-bird law.

\$57,000 for gathering crop forecasts and estimates.

\$113,500 for road management and road building and maintenance.

\$144,000 for investigations of the marketing and distribution of farm products.

\$50,000 for live stock and other demonstration work in the sugar-cane and cotton areas of Louisiana.

A decrease of \$37,340 is made in the funds of the Weather Bureau, made possible by the increased efficiency shown in handling its work.

It is recommended that the Congressional seed distribution, as now conducted be discontinued, and that constructive work in securing and distributing new and valuable seeds and plants be substituted.

Plan To Re-organize The Department

To promote co-ordination, allow greater latitude in carrying out of projects, and to establish a more logical handling of regulatory work and research, investigation and demonstration work, the Secretary will ask the Congress in the coming estimates for authority to prepare a plan for re-organizing, redirecting and systemizing the work of the department as the increase of economical and efficient administration may require. This plan would be submitted in the fiscal estimates for 1916. It is believed that the department can best carry on its functions and carry its information to the people it seeks to serve, probably by having its work conducted in five or six main groups such as a research service, a regulatory service, a State weather service and others as special occasion might warrant.

Promotion Based On Efficiency.

A system of efficiency ratings affecting all clerical and sub-clerical

employees, designed to eliminate all danger of favoritism and to provide for promotion entirely upon merit, has been established.

Increased efficiency and considerable economy have been gained through changes in the handling of fiscal matters.

It is recommended that the department be given authority to increase the maximum salary of \$4,000 which now can be paid to scientific investigators. It is pointed out that many of the leaders in the department could command salaries in many cases more than twice what they are receiving.

Changes In Weather Bureau.

Changes in the organization and work of the Weather Bureau have resulted in increased efficiency and economies which make possible a reduction of \$37,340 in its funds. Certain stations and sub-stations will be eliminated and the work of other stations not well located for atmospheric work will be limited to forecasting, crop warnings, flood warnings or forecasting. Full co-operation with the Hydrographic Office in the Navy Department in the publication of marine meteorological charts has been effected. Investigational work at Mount Weather will be discontinued and steps to make available for scientific work in more suitable locations the funds thus saved, will be taken. The crop and flood warning service designed to enable crop growers or those along certain waterways to have notice in time to take protective measures will be strengthened. The scientific work of the Bureau will be emphasized, especially in fields having a direct bearing on agriculture, commerce, navigation and aviation.

Postoffice To Aid In Census of Crop Acreage.

Changes have been made in the organization and work of the Bureau of Statistics to effect economies and increase efficiency. It is recommended that the designation of this Bureau be changed to "The Bureau of Agricultural Forecasts," which more accurately defines its functions. Co-operation with the Post Office to test the practicability of an annual census of acreage and stock through the rural route carriers has been effected. A committee on co-operation composed of representatives of various branches of the department and of other Federal departments will, it is believed, eliminate duplication of work and improve statistical results. Increased accuracy of crop forecasts will be secured through improvement in the field forecasts agents, special crop reporting system and the field service.

Country To Be Districted To Enforce Food and Drug Act.

Certain reorganizations have been effected in the Bureau of Chemistry looking toward more effective administration of the Food and Drug Act and to greater constructive technological assistance to manufacturers in avoiding waste, reducing cost of manufacture and to help them develop purer products which will comply with the law. The contrary will be divided into several districts each under the direction of a competent official. (Continued on page 6)

Facts in Nature

For centuries it has been known that Nature's most valuable health giving agents for the cure of disease are found in our American forests. Over forty years ago Dr. R. V. Pierce, chief consulting physician to the Inland Hotel and Surgical Institute at Buffalo, N.Y., discovered the medicinal value of the liquid extracts of native medicinal plants, Dr. Pierce's Golden Seal and Queen's Root, Golden Seal and Stone Root, Cherry Bark, etc., for the cure of blood diseases. This prescription as put up in bottles is sold everywhere.

DR. PIERCE'S

Golden Medical Discovery

and has enjoyed a large sale for all the time, and every drug store in the land. You can now obtain the powdered form of this medicinal plant in the form of your medicine, or send 50c in one-cent postage stamps for trial box to Dr. Pierce's Inland Hotel, Buffalo, N.Y., and tablets will be mailed, postage prepaid.

The "Golden Medical Discovery" makes rich, red blood, invigorates the stomach, liver and bowels and through them the whole system. Skin affections, blotches, boils, pimples and eruptions—result of bad blood—are eradicated by this alternative extract—thousands have testified.

Send 31 one-cent stamps to pay cost of mailing only on a free copy of Dr. Pierce's Common Sense Medical Adviser, 1008 pages, clothbound. ADDRESS DR. R. V. PIERCE, BUFFALO, N. Y.

The American Visible Typewriter

A GREAT INNOVATION IN THE TYPEWRITER AND EDUCATIONAL WORLD.

Ideal for Home Use or a Small Business Correspondence

For over twenty years we have been manufacturing strictly high grade, durable, low-priced typewriters, and this typewriter represents the results these years of experience. The American Visible Typewriter stands today absolutely alone in this field. The Ideal Home Typewriter.

IMPORTANT POINTS OF THE AMERICAN VISIBLE TYPEWRITER.

- 1st—All writing is visible.
- 2d—It will handle a small private or business correspondence.
- 3d—So simple in construction that a child can operate it without an instructor.
- 4th—Finish—handsome black enamel with gold lettering, base-board mahogany finished.
- 5th—Portability—Weights 2 lbs. —Furnished in Leatheroid case 6x10x3.
- 6th—Inking is automatic.
- 7th—Paper feed, line spacing, letter and word spacing is like the high-priced machines. Takes paper 9 1/2 inches wide. Will do everything but meet the requirements of a heavy business correspondence.
- 8th—Teaches young people business and commercial forms. Is of great assistance in school work—makes it interesting and attractive.
- 9th—The letters are arranged like the standard keyboard machines. Saves much of the time required at Business College in learning the use of high-priced machines.
- 10th—This machine may be exchanged at any time within a year for the American \$50 Typewriter at special price of \$30.
- 11th—Sent by parcels post prepaid upon receipt of \$5.

LUKE McLUKE SAYS

A man who follows his wife's advice may miss a lot of fun. But he seldom has to pay any fines in Police Court. Some men imagine the way to drown your sorrows is to tie a bottle of booze around the neck of each sor-

A flock of scientists have decided that wireless telegraphy is the invention that has done the most for mankind. And not a man in the bunch said a word about Modern Plumbing.

The Sex Knowledge reformers wouldn't think much of a mean skunk who would tell children that Santa Claus was a myth. But they insist on the children knowing there ain't no Stork.

In Luke's hobo days one of the stereotyped stunts on cold nights was to go to a blood-and-thunder Evangelist's revival and get saved. Getting saved meant a bed and a breakfast and maybe two bits. Some hobos, like Jersey Slim, do nothing but follow the professional soul-savers and grow fat. The Slims throw themselves on the front bench and start the hysterical wave. Others in the audience merely express their conversions by sending up printed cards distributed beforehand. There are tricks in all trades.

Another kind of a Nature Faker is a widow who talks like a school girl when she meets a man.

Why is it that a woman who is the most graceful thing in the world when she does anything else, has to act like a hamstrung hippopotamus when she gets off of a street car?

The old-fashioned girl who had her ears pierced for earring holes now has a daughter who wears a watch where her garter ought to be.

We'll admit that the girls are not wearing much this winter. But we miss that last Summer's effect every time we hit a sunny corner.

Every time a man reads about a beautiful girl somnambulist who takes strolls in the altogether every evening, he always wonders why something like that doesn't happen in his neighborhood.

Some men put in their whole lives seconding the motion. And if you stick to the straight and narrow path you will never get injured in the rush or mangled in the stampede.

If Beauty is only skin deep some of the new skirts are certainly Beauties.

A woman sits down and waits for Temptation. A man gets up and meets it half-way.—(Cincinnati Enquirer.)

PRICE AND QUALITY.

HOT CHILI.

Hot Mexican Chili Con Carne at Slattery's Cafe today.

CHRISTMAS WHISKIES.

The famous Wigglesworth whiskey, 3 years old, only \$2.00 per gallon. Eight-year-old Sam Clay, in full quart bottles, only \$1.00 per quart. (5-5t) JOHN JOHNSON.

NEGROES HOLD UP MEN AND TAKE \$50 IN CASH

Roy Smith, Grant Bib and Lewis Gibbons, three negro men, were held up at a late hour last Monday night and robbed of about \$50 in cash. Three negroes, it is alleged, were implicated in the crime and Tuesday morning John White alias "China Red," was arrested by Patrolman McKenney. About noon Tuesday, a negro whose alias is "Mississippi," was taken into custody by Patrolman McKenney. About \$20 in cash was found on the men, who were identified as being members of the gang which committed the robbery. The third man made his escape.

READ THE AD.

Read our advertisement on page 5. It contains suggestions that will be of value to you. Anything mentioned in this ad would be a useful and ornamental gift. Remember we save you money. No trash. Everything worth the money.

J. T. HINTON.

BEING AGREEABLE

Are you agreeable? If so, with whom do you agree? Do you agree with yourself or with other people? Each of us, as we journey through life, is confronted with this dilemma almost daily. The trouble, of course, lies wholly with the peculiarities and predilections of the human animal. If one doesn't agree with the human animal its feelings are hurt. Hence, if you agree with yourself you hurt other people's feelings, while if you agree with other people you hurt your own feelings. Someone's feelings, alas, must be hurt. At the present stage of evolution there seems to be no way out of it. It may be that some time, as we plod on toward the millennium, we shall get our feelings so under control that it will make no difference whether people agree with us or not. Haste the glad, but remote, day.

Mount Katahdin, in Piscataquis county, Maine, has an elevation of 5,260 feet, and is the highest mountain in the State, according to the United States Geological Survey. The average or mean elevation of the entire State of Maine is 600 feet above sea level.

TELEGRAPH OPERATOR FINDS FINE PEARLS

George W. Newman, a telegraph operator employed in the Western Union office at Evansville, Ind., while eating oysters in a restaurant in that city, Tuesday night, found three pearls, the gems being about as large as a grain of pop-corn. The pearls were pronounced by jewelers to be worth \$700. Mr. Newman sent them to his son, at Kansas City for a Christmas gift.

FOR THE CHILDREN.

All kinds of games and books for the children. Buy your Santa Claus for the little ones from us.
(284f) PARIS BOOK STORE.

PLACE TO BUY. The place to buy your Xmas jewelry is at Shire & Fithian's.

CARLISLE TO HAVE NEW MASONIC TEMPLE

Carlisle is to have a new Masonic Temple and a new theatre building. Plans for these buildings and a large business house for Taylor Mathers have been received from the architects and are in the hands of contractors, who will furnish estimates of cost. It is said that the contracts will soon be let and that dirt will be broken for the buildings in the early spring.

CHRISTMAS WHISKIES.

"ISCH GA BIBBLE!"

Replying to a question put to him by a clergyman at the weekly meeting of the Presbyterian ministers of Philadelphia, Monday, Professor Eric Doolittle, director of the University of Pennsylvania's Astronomical Observatory, said he thought life on this earth would come to an end in about 15,000,000 years.

Prof. Doolittle had been making an address on "Astronomy." In reference to the end of the earth's life he said:

"Unless some supernatural power or being interferes or the earth comes in contact with another planet or Heavenly body, the earth will exist for fifteen million more years."

"The earth is dependent upon the sun for its heat and light, although the earth now contains some heat itself. When the sun eventually cools off the result will be darkness and cold, which will bring an end to all life, animal and vegetable."

"WHAT DO YOU THINK OF THIS?"

Representative Curry, of California, has introduced a bill to require telegraph companies to capitalize properly and punctuate properly all telegrams, under penalty.

HAS HYDROPLANE FOR HIS DAILY TRAVELS.

(New York Herald.)
Chicago—Harold F. McCormick, son-in-law of John D. Rockefeller, has bought a flying boat and put himself on record as the first civilian in America to recognize the aeroplane for practical everyday use. Mr. McCormick will use the machine for daily travel between his office in the city and his home, at Forest Lake, twenty-five miles away. He expects by its use to reduce one-half the time spent in traveling between his home and office, as well as to find in it a new and exciting sport.

Mr. McCormick's boat is guaranteed to travel at fifty miles an hour on the water and more than a mile a minute in the air just above the lake or skimming the surface. These air and water machines, invented more than a year ago by Glenn H. Curtiss, are now being used extensively in Europe. Thousands of miles have been traveled in them both here and abroad, but to date it is said none has been involved in any serious accident.

Combining the speed and comfort of an aeroplane with the safety of a motorboat, with the disadvantages of neither, the McCormick boat will be twenty-six feet long, have seating arrangements for four persons and wings spreading forty feet. The passengers will be protected from wind and spray by a collapsible shield. Power will be provided by one of Curtiss' new eighty-horsepower aeroplane motors, and the travel radius will be nearly 400 miles. Complete with equipment the flying motorboat weighs more than a ton, yet it will rise from the water like a gull within 100 hundred yards of the starting point.

It is expected that Mr. McCormick will enter the craft in the hydro-aeroplane races to be held this summer by the Aero Club of Illinois.

Auction bridge is becoming so popular with "high" society that the good ladies will soon begin to trade their cradles for folding card tables.

"Teach the facts about your home city in the public schools," urges the Bureau of Municipal Research, New York City.

Goods Marked in Plain Figures.

SHEEP IN THE UNITED STATES.

In the United States in 1880 there were 42 million sheep; 40 million in 1890; 33 million in 1900, and 39 million in 1910. This census excludes lambs. Sheep in New England decreased from 1,362,000 in 1880 to 306,000 in 1910.

In the Middle Atlantic States in 1880 the number of sheep was 3,600,000, and in 1910, 1,260,000.

In the East North Central States there were 10,566,000 sheep in 1880, and 6,534,000 sheep in 1910.

In the West North Central States there were 3 million in 1880, and 3,500,000 in 1910.

In the South Atlantic States there were 2,500,000 in 1880, and 1,500,000 in 1910.

In the East South Central States there were 2,305,000 in 1880, and 1,500,000 in 1910.

In the West South Central States there were 4 million in 1880, and 1,600,000 in 1910.

In the Pacific States there were 7 million in 1880, and 3,778,000 in 1910. These all show a heavy decline in the number of sheep.

The Mountain States, so-called—

Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah and Nevada—had 7 million sheep in 1880, 13 million in 1900, and 19,500,000 in 1910.

It is manifest, therefore, that the wool tax does not develop the sheep-raising industry except in the sparsely settled communities, where a small part of the land is under cultivation. It is proposed that this tax be retained on nine-tenths of the people, that one-tenth may have sheep grazing on lands that cannot be reduced to profitable cultivation under ordinary agricultural conditions.

A ship-building slip is maintained in connection with the High School at San Pedro, Cal., where, under the practical instruction of a nautical architect, the students learn how to build a boat, make and place the engine, and launch and run the craft. Classes in boat building and marine commerce make trips to the wharves and aboard ship to study ship construction, engine action, and the character of the cargoes. Shipping law is also part of the course.

NATIONAL ORGANIZATION TO STUDY INSECT PROBLEM.

WASHINGTON, Dec. 15.—The enormous losses due to forest insects have led to the formation of a society for the advancement of forest entomology in America. The members of this society hold that the work of insects has not received the attention which it deserves.

Henry S. Graves, U. S. Forester, the newly elected president of the organization, said that they were, in general, to call attention to the part which insects play in forest problems. "We have had," he said, "widespread and specific interests in insect pests such as San Jose scale and the boll weevil, which affect all of us as to what we eat and what we wear. Forest insects through their destruction of timber increase the cost of a necessity which enters quite as much into daily life of the individual as do the products of the field and orchard. If the importance of the protection of our forest resources from insects is generally recognized, a large part can be prevented or avoided."

"Right now in the national forests the bureau of entomology and the forest service are co-operating to stop insect ravages by discovering their beginnings, and stamping them out. A few isolated trees attacked by insects may form the nucleus of a mountain-side devastation quite as serious as that from a forest fire. The opportunity for combatting insects, however, is in one respect better than in the case of a fire, which runs rapidly, because it takes several years for an insect devastation to spread until it becomes of such proportions as that which overspread the yellow pine forests in the Black Hills in 1906. Watchful care on the part of forest officers, lumbermen and private individuals will make it impossible to teach these infestations before they get a good start. By cutting and burning trees, or stripping off the bark, the insects can be killed. As in all cases, an ounce of prevention is worth a pound of cure."

"Who make up the membership of the organization?" was the next question asked of Mr. Graves.

"It is open to any one interested in the subject," Mr. Graves replied. "It seems to me that the relation of forest insects to forest protection touches almost every one. Of course we expect that new members shall be recommended by the present membership, which is made up largely of persons who have studied the forest problem at first hand. In order, however, that the objects of the society shall be kept foremost, it is required that at least four of the seven officers must be chosen from among professional forest entomologists. It is expected that honorary vice-presidents represent Federal, State and private interests will be elected to promote the objects of the organization in many localities throughout the country."

"How will these objects be attained?"

"In the first place, the objects of the society are largely educational. As in all questions of large public importance, the main idea is to give the public an opportunity to know just how important they are. In the second place, the society will form a clearing house for information, and its meetings will discuss the most advantageous methods of insect control. Take, for example, the ravage of the Gypsy moth and the brown-tail moth in the Northeastern States. If we can bring about general knowledge of these insects and of the harm they do, and are able to instill into the mind of the individual the necessity for and the proper methods of their control, how much easier it will be to combat them than when the work is confined only to governmental agencies!"

A FEW SUGGESTIONS.

A fire set, carving set, dinner set, chamber set, or water set makes an ideal gift—we have them at prices to suit.

(2-2t) FORD & CO.

SNAKE HAS RECORD AS "HUNGER STRIKER."

Python in New York Zoo Has Been Without Food For Twenty-two Months.

(New York Tribune.) Twenty-two months without food is the record which has been established by Princess, a python twenty-one feet long, in the New York Zoological Park. The big reptile is the only original "hunger striker" in the collection, and her Marathon performance in that direction makes all competitors "pikers" as compared with her achievement.

"Those English Suffragettes are not in it with Princess," said Charles Snyder, keeper of the reptiles and chief assistant of Raymond L. Ditmars, curator, when speaking recently of his latest attempt to get the serpent to eat. Snyder says it is twenty-two months since Princess suddenly decided to solve the cost of living problem in the reptile house by going on a fast.

"Maybe she wanted to go back to Singapore," said the keeper. Or she may have wanted to get out like the Suffragettes. Why, Mrs. Pankhurst and Zelle Emerson are amateurs alongside Princess."

In all the time of her feast the big python has not lost a pound in her weight. She is as active as ever, and her temper has not been noticeably different than when she first came to the park from the Far East. Snyder said it was no unusual thing for a python to go without food for a month or two at certain seasons of the year. But when the feast was broken a forty-pound pig generally furnished sustenance for at least another month.

The pythons are night eaters, not "guzzlers." They are used to foraging for food, so the keeper declared, in the evening hours or in the early morning. Every time an attempt has been made to feed Princess it has been after sundown.

On Saturday night Snyder thought Princess had shown signs of falling off the "hunger wagon." He brought out a rabbit that had been killed only a few minutes before.

"I thought sure Princess would take

it," he added. I put it into her cage and wiggled it about on the floor as if it were alive, but she coiled up tighter and went to sleep. I gave the rabbit to Big Annie, the anaconda, who went once for three months without eating."

Two Plymouth Rock hens from the farm in the Zoological Park were offered to Princess, but she gave no more heed than she has at intervals during the nearly two years of her fast.

While Snyder and his chief, Mr. Ditmars, are not worrying about the present condition of the serpent, Snyder finds himself walking in the night trying to figure out how he can coax the serpent to eat. There is a spirit of defeat about it the keeper does not like to confess even to himself.

This situation has not passed without suggestions, facetious and otherwise, from some of Snyder's associates. One has proposed giving Princess gruel with a spoon, another has advised the use of a stomach tube and a third said he believed an injection of anti-fatigue serum would cause Princess to get over the tired feeling.

"She is too lazy to eat," said the keeper.

Except for the Croton water consumed Princess has caused no expenditure of money for two years.

BEAUTY PARLORS.

FLOOD LOSSES OF THE RAILROADS.

(New York Evening Post.)

Estimates of losses to the railroads caused by the floods, are necessarily only guesswork as yet. They are put at from \$35,000,000 to \$50,000,000; and the sum does not seem unreasonable when one remembers the number of bridges destroyed, the miles of track washed away, the other physical property wiped out, besides the loss caused by demoralization of train service, delays, extraordinary outlay and the future diminution of transportation business from the ruined districts. Now, we should like to ask the physical valuation men what place in their calculations they reserve for such unforeseeable and enormous impairments of railway property. Will they undertake the role of an earthly Providence, and tell the managers just what the average loss will be from disasters of this kind, over a period of years? Or, granting that increased capital expenditure warrants higher freight charges, would they say that the thing for the railroads to do would be to impose higher rates at the very moment when the people in the afflicted territory are least able to pay them? Such questions go to the heart

of the theory that you can exactly and scientifically determine railroad rates by an exact scientific physical valuation of railway property. For in the latter there are too many variables to make the process at all a safe guide. This is vividly shown all the time in a thousand ways, less startling, but no less conclusive against the views of the rigidly doctrinaire railway valuers.

baking powder. Don't be misled. Buy Calumet. It's
more economical—more wholesome—gives best results.
Calumet is far superior to your milk and soda.

YOUTSEY WILL HELP IN BERTILLION WORK

After January 1, Henry E. Youtsey will assist in the Bertillon department at the State Reformatory at Frankfort. He is an expert stenographer, and will act as secretary to Warden Wells in the office inside the prison. He will not be a trustee. Youtsey is serving a life term for the murder of Governor William Goebel.

Night schools of cosmopolitan character are by no means confined to congested centers in the East. At Gallup, McKinley county, New Mexico, the following nationalities were represented in a recently established evening school: American, Spanish, Slavonian, Italian, Servian, Austrian, German, French, Danish, Swedish, Irish, Scotch, English and Cherokee Indian. Twenty-five different occupations were represented. In ages the pupils ranged from 15 to 62. Many of them desired the ordinary elementary branches, but there was also a strong demand for such subjects as bookkeeping, shorthand, typewriting, Spanish, mechanical and architectural drawing.

Speeded up the Factory

A BIRMINGHAM Selling House received a rush order for machinery.

The sales manager called the factory at Pittsburg on the telephone, and was assured that the order would be shipped as desired.

Long Distance Bell Telephone service is an essential link between the selling house and the factory.

ROYAL ASSASSINATIONS AND AMAZING ESCAPES.

The tragic death of King George, of Greece, who was shot through the heart while walking in the streets of Salonica, recalls a remark which his Majesty once made to the effect that he believed it was fate to die at the hands of the assassin. This was after a deliberate attempt to kill him on February 26, 1898, when he was shot at while driving with his daughter, Princess Marie.

The determination of assassins of Royalty is one of the most remarkable features of these dastardly crimes. No fewer than three attempts were made on the life of King Humbert, of Italy. On November 17, 1878, ten months after his accession to the throne, a man attempted to stab him with a dagger, the King escaping with a slight scratch. The second unsuccessful attempt was in 1897, when a workman struck at him with a dagger while he was driving to the races, the murder's blow being again averted. Three years later, however, the assassin Bresci accomplished his fell purpose by shooting King Humbert at Monza.

The Emperor Francis Joseph, of Austria, has reason to be greatly embittered against assassins, for not only was his wife, the Empress Elizabeth, was fatally stabbed while walking from her hotel at Geneva in 1898, but twice attempts have been made on his own life. In 1853 a tailor named Libeny tried to stab the monarch in the neck, his knife sliding down the military cravat of the Emperor's uniform, only a slight wound being inflicted, while in 1882 he was shot at by a youth named Overdank, the shot, however, missing its intended mark.

Four Czars of Russia have been assassinated, the last being Alexander II, in 1881. Six attempts were made on this monarch's life before the fatal end. On one occasion he only escaped through the barrel of the assassin's pistol bursting, while in 1866, when the dinner hall of the winter palace was wrecked by an explosion from the cellars, the Emperor owed his life to the fact that the company did not sit down to dinner at the usual hour, and so the explosion was ineffective. Ultimately Alexander was blown to pieces with nitroglycerine while driving through St. Petersburg on March 13, 1881.

Three attempts have been made on the life of the present Czar, the last being in 1905, when celebrating what is known as the Twelfth Day Festival. A pavilion had been erected in front of the Winter Palace, and after the Czar and Grand Duke had finished prayers in this pavilion, a salute of guns was fired from the fortress of St. Peter opposite the palace on the other side of the River Neva. To the consternation of the attendants, the pole of the banner over the pavilion was broken in two, while the windows of the palace were shattered. It was afterward discovered that one of the guns from the fortress had been loaded by an unknown hand.

Three attempts were made to kill Queen Victoria, while twice an assassin tried to take the life of the late King Edward, but without success. The last occasion was in 1900, when Sipido tried to shoot King Edward at Brussels.

Perhaps the most narrow escape which Queen Victoria had was when her life was attempted by Roderick Maclean in 1882 at Windsor Station. Had he been a little more cool or a more excellent shot, this assailant would most certainly have succeeded in his purpose.

GOOD ROADS PREVENT DISEASE

Few persons, on first thought, see any possible connection between good roads and good health. Yet the State Board of Health of Kansas says that good roads can and will prevent disease. How? By the removal of weeds and trash. Weeds and trash prevent the prompt evaporation of moisture and promote retention of ground water. This makes ideal breeding spots for mosquitoes, flies and other insects, which are known as disease carriers, not to mention chinch bugs, grasshoppers and other insects which are crop damage. Furthermore, an undergrowth of weeds invites the dumping of garbage and manure by offering concealment, of which fact careless and thoughtless people are prone to take advantage, thus increasing the facilities of insect breeding and providing these insects carriers with proper material for disease transmission. Good road also prevent disease by providing good drainage. Many farms have no means of drainage except by ditches along roadways. Open ditches, clear of brush and debris, with hardened surface and proper fall, afford the farms the opportunity of ridding themselves of many a stagnant pool. The removal of weeds, proper road grading, surface hardening and oiling insures prompt drainage of all pool, ditch and surface water, removing the possibility of insect breeders, for none can multiply without moisture. Road oiling in itself is destructive of insect larvae, especially mosquitoes—a well-known fact. Dry roads offer pedestrians, and notably children who are compelled to walk to and from school, dry shoes and feet. While colds are due to specific germs, yet it is a well-known fact that cold, wet feet and chilled limbs lower the resistance of individuals and makes them more favorable subjects for infections of the respiratory passages, including pneumonia and tuberculosis. Good roads prevent disease by setting an example to adjoining farm premises. Good roads promote travel and set an example to the farmer whose premises are bordered by them. The comparison of a well-graded, clean highway with an unkempt and trashy barnyard adjoining is sufficient to stimulate every land owner to a clean-up. Pride compels him to offer to passersby, a neat-appearing and attractive house and barnyard. Results are only too obvious. Good roads are active disease prevention agencies, aside from their financial and commercial value.—(Journal of the American Medical Association.

J. T. HINTON,
Mayor.

SOCIAL AND PERSONAL

SOCIAL CALENDAR.

—Friday, Dec. 19—The younger society boys of Lexington will give a dance at the Phoenix Hotel, to which a number from here are invited.

Tuesday, Dec. 23—Miss Margaret Ardery will give a dance at Elks' Hall.

Wednesday, Dec. 24—Mr. Harmon Turner will give a dancing party at his home in the country.

Thursday, Dec. 25—The Bourbon German Club will give the third of the season's series of dances at the Elks' Hall.

Friday, Dec. 26—Mr. and Mrs. Swift Champ will give a dance at Elks' Hall for their honor guests, Miss Minnie Ball Moore, of Harrodsburg, Miss Margaret Dale Thurman, of Louisville, Miss Edna Holdt, of Clinton, Cincinnati, and Miss Lucy Burchfield, of Pineville.

Monday, Dec. 29—The Bourbon Dancing Club will entertain with a dance at Elks' Hall.

Tuesday, Dec. 30—A fashionable affair will be the watch party and dining at Stout's Cafe.

Tuesday, Dec. 30—A number from this city have been invited to a dance at Shelbyville.

Friday, Jan. 2—The Georgetown Social Club will entertain with a dance to which a number from this city have been invited.

—The younger society folk are anticipating the Christmas holidays with much pleasure, as a round of parties has already been announced. A large number are away at school and will be heartily welcomed home. Miss Marion Alexander, Miss Elizabeth Clay Alexander, Miss Margaret Ferguson and Miss Alice Rogers Clay will arrive Friday from Cincinnati. Miss Elizabeth Renick will arrive today from Nashville, Tenn. Miss Anna Wilson will arrive today from Hollins, Va. Miss Louise Steele, Miss Katherine Marsh and Miss Matilda James will arrive Saturday from Versailles. Mr. Douglas Clay and Mr. Edgar Vansant will arrive today from Virginia. Mr. James Thompson, Jr., and Mr. Coleman Renick arrived yesterday from North Carolina. Mr. Charles Spears and Mr. Edward Spears came Wednesday from Indiana for a few days before going to Florida for the holidays.

Mr. Joseph W. Davis, Jr., came home Tuesday, from M. M. I. Mr. Alvin Thompson will come Saturday from Mississippi, and Mr. G. C. Thompson from Danville. Miss Frances Champ and Miss Sarah Thompson will arrive Friday from Danville. Mr. Sidney Ardery, Mr. Thomas Prichard and Mr. John Price will arrive to-day from Danville.

Miss Annie Wright, who now boards in Lexington, is visiting Paris friends.

—Miss Margaret Ardery will entertain at Elks' Hall on Tuesday evening, Dec. 23.

—Mrs. Belle Graves, of Evansville, Ind., is here for a visit to her daughter, Mrs. D. Alexander.

—Miss Minnie Goddell has arrived from Earlinton for a visit to Mrs. P. L. Jameson, on High street.

—Mr. Jos. Davis returned home Tuesday for the Christmas holidays from a school near Louisville.

—Mrs. J. T. Vansant has returned from a visit to her sister, Mrs. Ormond Summerville, at Tuscaloosa, Alabama.

—Mr. Harmon Turner will entertain with a dancing party Wednesday evening, Dec. 24, at his home, near this city.

—Miss Susan Bond, of Lawrenceburg, a former student at Bourbon College, is the attractive guest of Katherine Thomson.

—Mrs. Mozelle Huddleston and Miss Madeline Huddleston will arrive home next week after a visit to Mrs. Smith, in Kutch, Colo.

—Miss Helen Hutchcraft arrived yesterday to spend the Christmas holidays with her parents, Mr. and Mrs. R. B. Hutchcraft.

—Mr. and Mrs. W. B. Faulkner and Hugh Minor, of Cannel City, spent Saturday and Sunday with Mr. and Mrs. F. E. Faulkner.

—Mr. Jesse Turney, of Paris, Judge Charles Kerr, of Lexington, and Judge Robt. L. Winn, of Mt. Sterling, left Saturday night for Big Stone Gap, Va., on a business trip.

—Messrs. Charles and Edward Spears arrived Wednesday from Culver, Ind., but left yesterday to spend the Christmas holidays with the members of the Spears family.

—Misses Lillie and Katherine Weathers, of the Clintonville neighborhood, are with Miss Mary Clark during the absence of Mrs. Clark and Misses Hattie and Lelia Clark, in Cincinnati.

—There was only a small attendance at the meeting of the Progressive Culture Club Wednesday. Miss Clara Bacon gave an account of "Dickens's Christmas Stories" in a very delightful manner. Mrs. George Stuart had a paper on "Christ, and How Represented in Art," and Mrs. Robert Goggin told of "The Celebration of Christmas in Other Lands."

—Miss Catherine Kelly, who has taken a course in professional nursing at the Good Samaritan Hospital, Lexington, has been accepted for duty, although her probatory term does not expire until January, but on account of her capability the term was shortened. This will be very gratifying news to the many friends in Paris of the popular young woman.

—At a meeting of the Paris Literary Club, Wednesday, Mrs. Withers Davis read a paper on "Elsinore, the Home of Hamlet," and Miss Lilliston gave a paper on "Hans Christian Anderson." "Thornaldson and His Lowry," was postponed until a later date. At the conclusion of the program the President, Miss Simms, gave a very practical talk on the importance of selling the Red Cross Christmas Seals and the possibilities of realizing from the sale. Mrs. Ossian Edwards read an interesting

article giving the origin and history of this benevolent enterprise.

—Mrs. George Young has returned from a visit in Carlisle.

—Mr. T. J. Curtis, of Richmond, was a visitor in Paris last week.

—Miss Mary Peed, of Mayslick, is visiting her sister, Mrs. Albert Hinton.

—Mrs. Dudley Plummer, of Carlisle, visited relatives in this city Wednesday.

—Mr. and Mrs. W. M. Shobe have arrived from Salem, N. J., to spend the holidays with and Mrs. J. H. Butler.

—Mr. B. C. Renick, a student at the Asheville School, Asheville, N. C., arrived home yesterday to spend the holidays.

—Hon. and Mrs. E. M. Dickson will leave to-day for Little Rock, Ark., to spend the Christmas holidays with Mr. and Mrs. Durand Whipple.

—The girls' list for the dance to be given Friday evening, Dec. 26, at Elks' Hall, by Mr. and Mrs. Swift Champ is at the store of J. W. Davis & Co.

—Mrs. D. W. Peed entertained with a delightful luncheon-euchre yesterday afternoon at her home on South Main street, from 1 to 4 o'clock.

—Mrs. Thos. I. Brent, of Kansas City, Mo., who has been the guest of Mrs. Belle Alexander, has gone to Mason county for a visit before returning to her home.

MISS MARSH'S WILL IS ADMITTED TO PROBATE

The will of the late Miss Nellie R. Marsh was presented for probate Wednesday in the office of County Clerk Pearce Paton. The instrument is entirely in the handwriting of Miss Marsh and bears the date of January 21, 1913. By the provisions of the will all her real estate and personal property is left to her only sister, Mrs. Frank Marsh Carpenter, during her life, to reinvest if she so desires, and at her death is to be equally divided between the sister's children, if any, and her two brothers, if living, or their children. In the event that the sister or either brother leaves no children their shares shall revert to the remaining brother or his children. To her brothers, Thomas K. Marsh and William Steele Marsh, Miss Marsh bequeaths \$500 each to be paid by Mrs. Carpenter at her earliest convenience, but said brothers are not to force her to pay at any given time. No executor was named in the will and an administrator with the will annexed will be appointed by the Court.

BASCOM FARM LAND SELLS FOR GOOD PRICE

Through the real estate agency of Harris & Speakes, the Clark Bascom farm, better known as the John Hamilton farm, located near Millersburg, on the Ruddles Mills & Millersburg pike, was sold Wednesday to James Toadyne, of Harrison county. The tract comprised 148 acres and the price paid was \$19,000, or above \$139 an acre. Mr. Bascom bought this farm about 6 years ago for \$95 an acre. It then included 216 acres, Mr. Bascom having sold 70 acres about two years ago at \$100 an acre.

The Christmas Tree that takes care of the little children is always lighted by Life Insurance policies on the Monthly Income plan in the Northwestern Mutual Life Insurance Co.

Agricultural Secretary's Report.

(Continued from page 2)

All branch laboratories and food inspectors will be under single direction and will work together instead of being independent of each other, a condition which led to lack of co-ordination in the past. Certain branch laboratories will be consolidated because the work can be done more effectively and more cheaply in the larger central laboratories which are provided with complete equipment and specializing chemists. Effort will be made to make the act more of a hygienic measure through increased attention to milk, eggs,ysters and fish, which are subject to organic contamination and may become carriers of disease.

To bring about greater harmony in the work of the State food officials and the department in food and drug work, the Secretary called a conference which was attended by representatives of 32 States, the District of Columbia, and Porto Rico. It is believed that this conference has promoted much better understanding. An office which will act as a clearing house of information among the State and Federal food and drug officials will be established to prevent duplication of work and promote harmonious action and co-operation. Experience has revealed certain weaknesses in the food and drug act—notably the lack of provision for legal standards, and its failure to apply to certain external remedies. The Secretary will ask that authority be granted to prepare and submit such amendments to this law as may be deemed needful to safeguard the health of the people, establish standards, better define drugs, improve the food supply and promote uniformity in the matter of food legislation.

Prosecutions Under Food and Drug Act and Oother Regulatory Acts.

Prosecutions under the Food and Drug Act and other regulatory statutes will be expected and made still more effective through co-operation with the Department of Justice whereby the Solicitor will prepare cases in the form of criminal informations and place at the service of the U. S. District Attorneys in the trial of cases the Department's attorneys who are thoroughly familiar with the highly technical and technological aspects of many of these causes. Under the Food and Drug Act, 1,048 cases were transmitted to the Department of Justice. Fines amounting to \$23,463.50 were imposed in 596 criminal cases, and decrees of condemnation and forfeiture entered in 365 other cases. Eight hundred and sixty-seven Notices of Judgment were published. The courts have evinced a disposition to impose more severe penalties in food and drug cases. Under the Meat-Inspection Act, 81 seeming violations were reported and convictions secured in 64 cases, in seven carrying sentences of imprisonment. Under the Live Stock Quarantine Acts, fines aggregating \$10,275 were imposed in 93 cases. Under the Lacey Act regulating interstate traffic in game, 154 cases were submitted, and convictions secured in 73 actions. Under the Insecticide Act of 1910, 108 cases were

reported and 59 cases resulted in fines or condemnation. The Twenty-eight Hour Law governing the shipment of live stock was vigorously enforced; 1,037 apparent violations were reported and penalties aggregating \$61,695 recovered.

Marketing.

In many directions further production wastes on better distribution, and the field of distribution presents problems which raise in very grave ways the simple issue of justice. Under existing conditions the farmer does not get what he should for his product; the consumer is required to pay unfair price, and unnecessary burdens are imposed under the existing systems of distribution. No one can see off-hand just what part of the burden is due to lack of systematic planning or inefficiency, economic waste, or to unfair manipulation. The report outlines the project in this field as covering marketing surveys, methods and costs of marketing, including available market supplies in giving production rates, demand at consuming centers, cold and other methods of storage, marketing systems and prices, and costs of wholesale and retail distribution of farm products. Other strides in this branch included: Investigation of transportation problems and the elimination of waste in shipment, study of city marketing and distribution, study of grades, and finally co-operative production for standardizing agricultural products as a prerequisite to proper marketing is given special emphasis. The adoption and universal application of one uniform standard for cotton would result in great simplification of all transactions and do away with the complex methods of figuring buyers' limits. Practically the same results would follow and the same evils would be removed if standard grades for corn and were universally adopted.

The individual farmer acting alone is helpless before the problems of rural credit and of marketing. Concentrated action does not mean that an organization shall attempt to establish a closed market and to fix the prices. This should be condemned as strongly in one field of industry as in any other.

It is recommended that provision be made for the establishment of grading standards for various farm products and for the promulgation of the standards already established by the Department for cotton and corn grades.

Rural Credit.

Condition vary widely in the United States. Farmers do not equally need GALLEY TWO. better credit arrangements and all sections are not similarly circumstanced. The report cites the variation of the interests paid by farmers on long and short time loans as among States and as among different sections of the same area. Among the many factors entering into these variations are climatic conditions, soil conditions, stability of industry, methods of farming, distance from markets, distance from centers of large wealth, the nature of

financial agencies through which capital is secured.

When all necessary allowance has been made for these fundamental factors, it is probably clear that the rural communities are not as efficiently served as they should be by existing financial arrangements. Long-time loans are needed for permanent investments, such as the purchase of a farm for the erection of buildings. It is wise economy to encourage the extension of credit for safe productive use, and no less wise to discourage the use of capital along non-productive or speculative lines. The rapid increase in farm values and the difficulties in securing land has given impetus to the importance of devising farm loans on terms such as will enable the producers to make the necessary payments on the interest and principal, so far as possible, from the returns of the land itself.

The report also discusses short-time loans, building and loan associations, land debentures, land mortgage, banks and various other domestic and foreign methods of rural investment and credit mechanisms. There does not appear to be need for unique or special legislation or for legislation which shall aim to give the farmer credit on easier terms than any other members of society. What is needed is the creation of conditions and machinery which shall enable him on similar credit foundations to secure money at the same rates as those that prevail for other classes and for other sections.

Other Rural Organization Problems.

Even though the problem of how the farmer can best sell his product and can improve the conditions under which he can sell his product and can improve the conditions under which he can secure the necessary capital were solved, there would still remain vital things to be accomplished before rural life can be made fully efficient, profitable, healthful, pleasurable and attractive, and before a larger disposition to remain on the farm develops. Good roads are prerequisite for better marketing, for better schools, and for more comfortable rural living. Better sanitation and hygiene in the home, in the school and in the community are just as vital for the rural community as for the urban.

To Study Disease-Carrying Insects Which Affect Agriculture.

The effect of the malaria-carrying mosquito on agricultural production has been made the subject of investigation on Southern plantations. Attention will be given to other disease-transmitting insects, such as the house fly, stable fly and spotted fever tick, which have a bearing on the health of rural populations. Satisfactory progress has been made in a study to discover means whereby the breeding of flies in manure may be prevented without lessening its fertilizing value.

Soil Surveys. The value of the soil survey work will be enhanced by giving precedence in surveys to those States which offer active co-operation. Nineteen States during the past year have entered into this plan. Reconnaissance surveys will be confined to classification of agricultural lands in the National Forests and the undeveloped areas of the community.

The Farm Woman.

To gain information that would enable the Department better to serve rural women, the Secretary addressed letters of inquiry to the women on 55,000 selected farms covering every county. Other surveys and studies were also conducted. Analysis of the small part of the letters as yet digested shows that farm women desire assistance in all phases of home management, especially as to ways of securing running water, introducing household power machinery and labor-saving arrangements, and providing better hygienic and sanitary conditions. Many seek advice as to the better making of the articles of product. Others ask the Department to prove to the man that their work is worth something in dollars and cents. The overworked women and children and difficulty of securing domestic help are mentioned by a number of the writers. These letters have furnished valuable suggestions for constructive work in this field. The Department believes that intelligent help to women in matters of home management will contribute directly to the agricultural success of the farm. It proposes, therefore, to ask Congress for means and authority to make more complete studies of domestic conditions on the farm, to experiment with labor-saving devices and methods, and to study completely the question of practical sanitation and hygienic protection for the farm and family.

Relations With State Colleges and Stations.

To eliminate duplication of effort and friction and bring about greater co-ordination between the State land grant colleges and experiment stations and the Department, several conferences were held with representatives of these institutions. The Executive Committee and the Secretary signed a memorandum formulating certain views. In substance, this memorandum holds that the Department's primary function is to undertake the study of problems and regulatory work that are more particularly regional, interstate and international in character and that upon the station should rest the responsibility of investigating problems within its State. Provision is made for union effort where co-operation seems necessary. Committees on projects and correlation of work, relations and publication of research will be appointed to bring about closer relations. It was agreed that the extension and demonstration service through which information is carried directly to the people should be administered under the immediate direction of the colleges; that extension service projects maintained by Federal funds should be entered upon only after mutual approval by the department and the colleges, and that

Federal funds be distributed and expended under proper Federal check; and that extension appropriations by the States be under State control. The Congress will be asked to provide necessary legislation, which is embodied in the Smith-Lever bill to establish machinery for extension work throughout the States, bring about a decentralization in this work and enable the Department to conduct this service with the full co-operation of the agricultural colleges. Legislation whereby the department, the colleges and the stations may coordinate their research activities and avoid duplication of work should be enacted. The Department is of the opinion that in the administration of the Hatch and Adams Acts, it will regard unwarranted change in the personnel and unnecessary interruption of projects as calling for inquiry and possibly warranting the withholding of funds.

Federal Road Policies.

There has been a steady movement for better roads during the past 20 years, and today 34 States have highway commission or some other State highway agency. The total annual expenditure of the State for construction and maintenance of roads which ten years ago amounted to but \$2,000,000, has grown to \$43,000,000 in 1912. The Federal Government should take the lead in investigation and experimental work, and there is need for a central agency which can furnish best information on all problems of road building and maintenance. Recently Congress made an appropriation of \$500,000 for improving post roads, expenditure to be contingent on the appropriation of double the amount of money by the State or local subdivision. If Federal aid is to be further extended in highway development, legislation to that end should incorporate this co-operative principle. The Federal Government should deal with the State as the lowest unit, through an expert highway commissioner as its agency. The plan should provide for maintenance as well as construction. Preference should be given to the improvement of roads over which products from farms can be taken to the nearest railway station. A scheme of road construction and maintenance within a State should be developed and mutually agreed upon. Money appropriated by the Federal Government should be apportioned on the basis of such factors as total population, farm population, area, taxable valuation, and mileage.

Power and Recreational Permits in the National Forests.

The National Forests are being classified to segregate lands valuable for agriculture and to establish permanent boundaries for timber production and water protection. The earnings from timber sales and other sources increased \$300,000, or 15 per cent, over 1912. The forests should produce all the timber they can and supply the public need at lowest possible cost under conditions that protect the public against monopoly.

Seventy-six water-power projects have been developed and thirty more are under consideration. The law permitting only a revocable franchise should be changed to allow a 50-year permit for power purposes, under provisions protecting the investor and the public.

Future use of the 167,000,000 acres, which does not interfere with more important employment, should be encouraged; the people should get the highest net total of recreational and other benefit from them. Fifteen thousand special permits for various purposes are in force, and last year over 1,500,000 visitors made recreational use of the forests. Legislation is needed to allow term permits for the construction of hotel and cottages, and for certain recreational use of the forests, with safeguards against damage, vandalism and contamination of water. Twelve hundred cities and towns now draw their water supply from these watersheds. Adequate legal authority to prevent water pollution and permit sanitary regulation of watersheds is sorely needed.

The Crop Outlook.

Special emphasis is laid on the fact that the figures for the crops quoted are estimates, and it is pointed out that this fact should be constantly kept in mind. From the estimates at hand, it appears that for the production of crops in 1913 was materially below the average, the yield per acre of all crops combined being smaller than in any year in the past decade with the exception of 1911. The corn crop, the most valuable product of this country, according to the estimates, fell below 2,500,000,000 bushels, which is smaller than any crop since 1903. Wheat production, with an estimated total of 753,000,000 bushels, is the largest ever recorded in this country. This crop was matured before the drought became effective. Brief mention is made as to crop conditions throughout the world. From the estimates it appears that there were increased areas sown to wheat, oats, barley, rye and corn, and that the wheat acreage has probably yielded a record per-acre. Barley, oats and rye are bountiful crops, but corn will probably give the poorest results in 20 years.

CALIFORNIA WOMAN SERIOUSLY ALARMED.

"A short time ago I contracted a severe cold which settled on my lungs and caused me a great deal of annoyance. I would have had coughing spells and my lungs were so sore and inflamed I began to be seriously alarmed. A friend recommended Chamberlain's Cough Remedy, saying she had used it for years. I bought a bottle and it relieved my cough the first night, and in a week I was rid of the cold and soreness of my lungs," writes Miss Marie Gerber, Sawtelle, Cal. For sale by all dealers. (Adv.)

"Cured"

Mrs. Jay McGee, of Stephenville, Texas, writes: "For nine (9) years, I suffered with womanly trouble. I had terrible headaches, and pains in my back, etc. It seemed as if I would die, I suffered so. At last, I decided to try Cardui, the woman's tonic, and it helped me right away. The full treatment not only helped me, but it cured me."

TAKE

Cardui
The Woman's Tonic

Cardui helps women in time of greatest need, because it contains ingredients which act specifically, yet gently, on the weakened womanly organs. So, if you feel discouraged, blue, out-of-sorts, unable to do your household work, on account of your condition, stop worrying and give Cardui a trial. It has helped thousands of women,—why not you? Try Cardui. E-71

LUKE MCLUKE SAYS

A soft answer saves you many a hard wallop.

When she is ten years old she will borrow a wad of gum out of a boy's mouth and chew it with enjoyment. When she is twenty years old she wouldn't shake hands with the same boy because she is afraid of being contaminated.

HEALS ITCHY ECZEMA. DR. HOBSON'S OINTMENT

The constantly itching, burning sensation and other disagreeable forms of eczema, tetter, salt rheum, and skin eruptions promptly cured by Dr. Hobson's Eczema Ointment. Geo. W. Fitch, of Mendota, Ill., says: "I purchased a box of Dr. Hobson's Eczema Ointment. Have had eczema ever since the civil war, have been treated by many doctors, but none have given the benefit that one box of Dr. Hobson's Eczema Ointment has." Every sufferer should try it. We're so positive it will help you we guarantee it or money refunded. At all druggists or by mail. 50 cents. Pfeiffer Chemical Co., Philadelphia & St. Louis. (Dec.)

The old-fashioned man who could not take a bath unless it was Saturday night now has a son who can't swear off unless it is the first of January.

STOMACH TROUBLES DISAPPEAR

Stomach, liver and kidney troubles, weak nerves, lame back and female ills disappear when Electric Bitters are used. Thousands of women would not be without a bottle in their home. Eliza Pool, of Depew, Okla., writes: "Electric Bitters raised me from a bed of sickness and suffering and has done me a world of good. I wish every suffering woman could use this excellent remedy and find out, as I did, just how good it is." As it has helped thousands of others, it surely will do the same for you. Every bottle guaranteed, 50c. and \$1.00. At all druggists. H. E. Bucklen & Co., Philadelphia or St. Louis. (Dec.) (adv.)

A man might appreciate the compliment. But you shouldn't tell a stout girl that she is all wool and a yard wide.

CROUP AND COUGH REMEDY

Croup is a terrible disease; it attacks children so suddenly they are very apt to choke unless given the proper remedy at once. There is nothing better in the world than Dr. King's New Discovery. Lewis Chamberlain, of Manchester, O., writes about his children: "Sometimes in severe attacks we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We can rely on it for croup, coughs, and colds." So can you. 50c. and \$1.00. A bottle should be in every home. At all druggists. H. E. Bucklen & Co., Philadelphia, St. Louis. (Dec.) (adv.)

A man shouldn't try to tell the truth all the time unless he is a champion fighter or a champion runner.

"QUESTIONS OF LIFE"

Are fully and properly answered in The People's Common Sense Medical Adviser by R. V. Pierce, M. D. As a result of knowing the laws of health and nature, happy marriages are sure to follow. Ignorance leads to misery and ill-health. All the knowledge a young man or woman, wife or daughter should have, is contained in this big Home Doctor Book, containing 1008 pages with engravings and colored plates, and bound in cloth, (nearly 700,000 copies formerly sold for \$1.50 each) is sent free to anyone sending 31 one-cent stamps to prepay cost of wrapping and postage. There are no conditions to this offer and the reader must not associate this book with the advertising pamphlets prepared by quacks throughout the country. Address 662 Washington St., Buffalo, New York. (adv.)

CERTAIN CURE FOR NERVOUS DEBILITY.

Tona Vita Overcomes the Trouble in A Few Weeks' Time.

There is a remedy that is absolutely certain to build up those suffering from a run down condition. This remedy is considered the most successful medicine ever sold to the public in this country. It is called Tona Vita and it is fast becoming a national tonic, endorsed by physicians everywhere. If you are debilitated, tire easily, have little strength or ambition and are nervous and depressed, get bottle of Tona Vita at once. You will be delighted to feel your old health and strength returning in a few days' time. If you have lost flesh, note your weight before taking and then get on the scales a week later. You will be astonished. Tona Vita is sold by Chas. E. Butler & Co. (adv.)

We all have our own way in this world until they take the other nourishment away from us and begin feeding us with a spoon for the first time.

FIT HIS CASE EXACTLY.

"When father was sick about six years ago he read an advertisement of Chamberlain's Tablets in the papers that fit his case exactly," writes Miss Margaret Campbell, of Ft. Smith, Ark. "He purchased a box of them and he has not been sick since. My sister had stomach trouble and was also benefited by them." For sale by all dealers. (Dec.) (adv.)

Some men are so contrary that you can bet you are wrong when they agree with you.

CONSTIPATION POISONS YOU.

If you are constipated, your entire system is poisoned by the waste matter in the body—serious results often follow. Use Dr. King's New Life Pills and you will soon get rid of constipation, headache and other troubles. 25c. at druggists or by mail. H. E. Bucklen & Co., Philadelphia & St. Louis. (Dec.) (adv.)

A girl can have a father and three brothers at home and still imagine her fiancé has wings and a halo.

An elegant line of handsome pictures just received. They make beautiful gifts. Our specialty is framing photos. See our mouldings. 27-ft) PARIS BOOK STORE.

Virtue is using so much rouge and carmine paint these days that a man has a hard time locating Vice. And it might help some if Dame Fortune was as good a mixer as her sister, Misfortune.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is nearly always caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or impaired hearing, and when it is entirely closed, deafness is the result, and unless the inflammation be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

P. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation. (Dec.) (adv.)

A single man can hardly wait for pay day to come around. But it doesn't mean anything to a married man.

What has become of the old-fashioned family Bible that contained a colored frontispiece showing Eve in a green one-piece form being driven from the Garden by an angel in a red sheath gown?

HOW TO BANKRUPT DOCTORS.

A prominent New York physician says "If it were not for the thin stockings and thin soled shoes worn by women the doctors would probably be bankrupt." When you contract a cold do not wait for it to develop into pneumonia, but treat it at once. Chamberlain's Cough Remedy is intended especially for coughs and colds, and has won a wide reputation by its cures of these diseases. It is most effectual and is pleasant and safe to take. For sale by all dealers. (Dec.) (adv.)

CATARRH OF THE PHARYNX.

Clearing out your throat every day, all day. That is what you have been doing for months. Possibly years. A little mucus covers the pharynx.

If you were to go to a doctor he would tell you that you have pharyngitis. If you were to look into your own throat you would find just back of the soft palate a red, lumpy, granular appearance of the back part of the throat. Pharyngitis the doctors call it.

Perhaps he would call it, follicular pharyngitis. It causes you constant annoyance. You are always making slight disturbances when seated in an audience. Can't hold your throat still. Stringy mucus bothers you. Worse in the morning.

A-hem! A-hem! A-hem! That is the way you are going nearly all day. Sometimes in the night when you wake up. You ought to gargle your throat with salt water every morning. Cold salt water. That clears out the throat perfectly and makes it ready for treatment.

Peruna is the treatment. Begin with a teaspoonful before each meal and at bedtime. Try it for a week. You will be convinced. Of course. Peruna will not entirely relieve you in a week. That is too much to expect of any remedy. But it will benefit you so much you will be convinced. Yes, it will. It has done this many times.

Follicular pharyngitis. Big words. Almost as bad as the disease. But if you take Peruna for one month regularly, you may forget that you ever had such a disease. Then you will have a perfect right to forget the big words too. People who object to liquid medicines can now obtain Peruna Tablets.

BIG CHRISTMAS BARGAIN SALE

Commences To-Day at

NEWS OF MILLERSBURG

—Mr. J. T. Judy and family moved Monday to their new home just completed.

—Mr. D. P. Jones was in Cincinnati on business Monday and Tuesday.

—See our handsome line of box candles just what you want for Christmas. Put up in handsome attractive boxes.

S. E. BRUCE.

—Col. C. M. Best left Thursday to spend the Christmas holidays with his mother at Woodstock, Va.

—Mr. A. P. Gooding, of Mayslick, who was the guest of his niece, Mrs. Ashby Leer, Monday and Tuesday, will in all probability organize an Eastern Star lodge here in the future.

—Best assortment of candies, fruits and nuts for Christmas. Call and see us before buying.

S. E. BRUCE

—Rev. J. D. Redd and Dr. C. C. Fisher returned Tuesday from Washington, D. C., where they took part in the demonstration last week before the House and the Senate Committees in the interest of the constitutional amendment on the liquor question.

—The M. F. C. and the M. M. I. have both closed for the Christmas holidays. M. M. I. closed on Thursday and the M. F. C. closes today. Most of the student body of both the schools will spend the holidays at their homes. The Public School will close next Wednesday.

—Our offices will be closed all day Christmas Day.

MILLERSBURG COAL & LUMBER COMPANY.

D. E. CLARKE & CO.

(12-21)

—The following are among those who have returned home for the Christmas holidays: Miss Alma Duke Jones, from the Cincinnati Conservatory of Music; Miss Bessie Purnell, of the Paris Public School; Misses Mary McDaniel, of the Cincinnati Public School; Miss Mattie Butler, instructor in music at Sharpburg; Miss Dorothy Peed, from the Graded School at Birmingham, Ala.; Dr. S. H. Creighton and family, of Indianapolis, Ind., with her mother, Mrs. Belle Taylor and family; Mrs. R. E. Limerick, of Williamstown, with Mrs. Clark Jones.

—Be sure and see my line before buying Christmas gifts. I have an up-to-date line of jewelry, watches, chains, fobs, lockets, vialieres, bracelets, cuff links, tie pins, clasps, fountain pens, silverware, toilet articles, both in Parisian ivory and silver, silver card cases, mesh bags and cut glass. It costs nothing to look.

(12-21) AARON McCONNELL.

—An interesting feature of the past week at the M. F. C. has been a series of talks on Europe by Miss Mayme Lee Long. Miss Long has recently returned from spending three months in England and on the Continent, and in her pleasing and original manner is giving delightful glimpses of her trip. Miss Nannie Louise Best, who

spent several years abroad in study, will contribute to the series a talk on Germany and Switzerland, and Miss Wisam, of the voice department, is quite at home among the Germans, will tell of their many Christmas customs.

—Miss Rena Stoker, aged 38 years, died yesterday morning at 10 o'clock at the home of her parents, Mr. and Mrs. Elmore Stoker, near Millersburg, following an illness of three weeks of nervous indigestion. A Lexington specialist was called in consultation last week, but her attending physician held no hope for her recovery. Miss Stoker was one of a family of six children, and is survived by two sisters, Mrs. Webb Reynolds, Mrs. Birdie Stoker, and Mr. Geo. Stoker.

The funeral will take place from her late residence at 10 o'clock Saturday morning, interment in Millersburg cemetery, with services conducted by her pastor, Rev. J. D. Redd, of the Methodist Church.

—One of the prettiest home weddings here in a long time was that of Miss Ruth Beeding Stirman, Wednesday afternoon, at 2:30, at the home of her mother, Mrs. Elizabeth Stirman, when she became the wife of Mr. Hendrick Hudson, of Flemingsburg. Miss Stirman is one of Millersburg's most popular young ladies, and this event has been looked forward to with much interest for the past several weeks, and since the announcement of her engagement.

The home was darkened throughout, and softly illuminated with wax tapers and candleabra. A number of intimate friends and relatives of the contracting parties witnessed the ceremony. During the time before the ceremony Miss Alfa Ball sang "When the Sands of the Desert Grow Cold," and Miss Stella Stirman, sister of the bride, played the beautiful selection of "Berceuse."

At the appointed time the bridal couple, unattended, filed down the spacious stairway and took their places in the parlor to the strains of Lohengrin's wedding march, played by Miss Stirman, sister of the bride.

The bride was gowned in a traveling suit of dark blue, with a white picture hat, wearing white gloves, carrying white bride's roses. They were met as they entered the room by the officiating minister, Rev. Harry Hudson, brother of the groom and pastor of the Presbyterian church at Sharpburg. After the ceremony and congratulations the bridal couple entered the automobile of their brother-in-law, Mr. Wells, and were driven to Paris, where they took the train for the South, where they will spend their honeymoon, and will be at home to their friends near Flemingsburg upon their return in January.

They were accompanied as far as Paris by Miss Stirman, sister of the bride. They were the recipients of many handsome and useful presents. Miss Stirman is the oldest daughter of Mrs. Elizabeth Stirman, a graduate of the Millersburg Female College, and an active member of the Presbyterian church, and is prominent in all the church societies. Mr. Hudson is a prominent young farmer of Fleming county, and is an active member of the Presbyterian church. Both are prominent in social circles, with a large circle of friends in this and other States.

DEATHS

CLARKE.

—Rev. H. D. Clarke, pastor of the Christian church at Mt. Sterling for twenty-six years, is dead at his home in that city. He was 74 years old, a native of Illinois and was an ex-Union soldier. Rev. Clarke was one of the best known ministers in Central Kentucky, and has preached in this city several times. Some years ago he assisted in conducting a revival at Paris Christian church and his sermons were remarkable for their force and the native eloquence which made the speaker distinguished among the preachers of the church.

JONES.

—Mrs. Amanda J. Jones, widow of E. F. Jones, Sr., died at San Antonio, Tex., Friday, Dec. 12, at 1:30 a. m., after a lingering illness and suffering for months. She leaves eight children, all of whom, except one, were with her during her illness. She was the mother of Mrs. William Harp of Mt. Sterling, Ky.; Mrs. C. E. Willmott, of Lexington; John J. Jones of San Antonio, Tex.; Mrs. James Heath of Kansas City, Mo.; J. S. Jones, of New York; Miss Rosa Jones, of San Antonio, Tex.; and B. F. Jones, Jr., of Nashville, Tenn. Interment was at North Middletown by the side of her husband. The funeral services were conducted by Rev. W. E. Ellis, pastor of the Paris Christian Church.

REMINGTON.

—Mr. B. F. Remington, aged 83 years, died at his home on Houston avenue, Friday evening at 10:30 o'clock, following a protracted illness of Bright's disease, terminating in paralysis.

Mr. Remington was one of the oldest members of Bourbon Lodge I. O. O. F., and was for years one of its most prominent members. He was a regular attendant until his physical condition prevented. His wife died in March, 1912, and since her death he has suffered a steady decline. His last illness has extended over a period of about three years, and last Wednesday he was stricken with paralysis.

During the administration of President Grover Cleveland he was appointed to the position of inspector of public buildings. He is survived by four sons, Frazier Remington, of Seattle, Wash.; Ed Remington, of St. Louis, Mo.; William Remington and Frank Remington of Paris; and four daughters, Mrs. Mamie Parrish, of Lexington; Mrs. Alice Fisher, of Carlisle; Mrs. William Howard and Mrs. J. T. Mann, of Richmond. Also by four grandsons, Frank P. Thos., William and Emmett Kiser, of Paris.

The funeral services were conducted at the residence, on Houston avenue, yesterday afternoon at 2:30 o'clock, by Elder J. T. Sharrard.

The services at the grave in the Paris cemetery were in charge of the Odd Fellows.

CLOSING OUT SALE.

The Bourbon Horse Goods Company will sell their entire stock of harness, blankets, suit cases, knives, scissors and razors at less than cost.

MATRIMONIAL.

COOK—MITCHELL.

—Miss Ira Cook and Mr. W. Mitchell, both of the Millersburg neighborhood, were married Wednesday afternoon in the parlors of the Windsor Hotel by Rev. J. S. Sims, pastor of the Methodist Church.

TADLOCK-JONES.

—Mr. Abram Jones, Jr., and Miss Maxie Tadlock, both of Lexington, came to Paris Tuesday afternoon, obtained a marriage license from County Clerk Pearce Paton and were married at the home of the officiating minister, Rev. W. E. Ellis.

OSBORNE—SMITH.

—The marriage of Miss Elizabeth C. Osborne, the attractive daughter of Mr. and Mrs. James Osborne, and Mr. Jesse Smith, a prosperous young Bourbon County farmer, was solemnized Wednesday afternoon at 2:30 o'clock at the home of the bride's parents, on the Bethlehem pike, about five miles from Paris.

SHIPP—HANES.

—The marriage of Mrs. Elizabeth Shipp, formerly of Paris, to Dr. Frederick M. Hanes, of Winston-Salem, N. C., was celebrated Tuesday night, at Larchmont, the home of Mr. and Mrs. Sanford Lyne, near Lexington. Rev. W. E. Ellis, of the Paris Christian church, was the officiating minister, and Mr. Robert Hanes, of Winston-Salem, was his brother's best man. Miss Jane K. Lyne was maid of honor. The wedding was a very quiet one, with only members of the family present. The couple left at once for St. Louis where they will reside in the future.

CHRISTMAS WHISKIES

Van Hook, Tarr, Wigglesworth whiskies, three year old, 100 proof, only \$2.00 per gallon. Eight year old Sam Clay in full quart bottles, \$1.00 per quart. Nine year old Anderson county whiskey, the very best made, \$1.00 per quart. Try our seven year old Van Hook whiskey, 100 proof, \$3.00 per gallon.

(12-4) RATLIFF & REED.

WHITE DIAMONDS.
Finest white diamonds only, that defy competition. Call and be convinced.
SHIRE & FITHIAN.

\$5,000 TROTTER FOUND DEAD IN PASTURE

Bill Highland, a widely known and sensationally fast trotter, with a record of 2:19, owned by E. R. Little, of Montgomery county was found dead in a pasture near Mt. Sterling. He was valued at \$5,000. The colt was sired by Toddington, and was considered a crack race prospect.

A GOOD SUGGESTION

Give him something that you all can use—a nice traveling bag from Mitchell & Blakemore's. It's just the right kind of a Christmas gift.

How to Detect the Alum Baking Powder

"Which are the alum baking powders; how can I avoid them unless they are named?" asks a housekeeper.

Here is one way: take the can of a low-priced powder in your hand and read the ingredient clause upon the back label. The law requires that if the powder contains alum that fact must be there stated. If you find one of the ingredients named alum, or sulphate of aluminum, you have found an alum baking powder.

There is another and a better way. You don't have to know the names of the alum powders. Use Royal Baking Powder only; that assures you a cream of tartar powder, and the purest and most healthful baking powder beyond question.

THEATRICAL.

Alamo Theatre.

Friday—"The Conscience Fund," a Selig melodrama in two reels. A great wrong righted. Cast includes Clifford Bruce, Thomas Carrigan, Adrienne Kroell, Maxwell Sargent and a good many other Selig stars.

Saturday—"White Feather," a Vitagraph western drama, with Myrtle Gonzales and George Cooper. Lubin presents "The Great Discovery" in one reel. "Objections Overruled," and "Black and White," two Biograph farce comedies.

Tuesday—Daniel Frohman presents Henry E. Dixey, supported by Laura Sawyer and House Peters, in an original drama of the underworld "Chelsea 7550," a Metropolitan mystery in four reels of motion pictures, directed by Searle Dawley. Produced by the Famous Players Film Company.

A SUITABLE GIFT

Give father a Felsom hat or a pair of Stetson shoes for Christmas. At Mitchell & Blakemore's.

(12-21)

LOVELY XMAS GIFTS

Beautiful hand-painted china and water colored pictures make lovely Xmas gifts. For sale by

MRS. HATTIE H. HILL,

East Eighth Street, Home phone 379

(12-31)

BAR STANDARD

TO BE RAISED

A bill for raising the standard of admission to the bar in Kentucky has been submitted to Judge William T. Lafferty, dean of the law college at the State University at Lexington. He is chairman of the committee appointed at the last meeting of the State Bar Association to consider amendments to present laws governing bar examinations. If the bill becomes a law it will mean that all candidates for admission to practise law must be graduates of a certain class high school, and have at least a two-year course at the College of Law.

SWEET GRASS BASKETS.

We have a most beautiful line of sweet grass baskets. All sizes and shapes and colors. They make the prettiest work baskets you could get. Also large stock of novel styles in waste baskets. Call in and see them.

FOREIGN UNIVERSITIES.

Foreign universities are now receiving some of the large private benefactions for which they have long envied American institutions. Cambridge University has recently received \$450,000 for general purposes, and \$50,000 for a chair of astrophysics; Bristol University has had a gift of \$100,000 from one donor, \$90,000 from another, and \$750,000 from others; Glasgow has been willed \$50,000 for a research lectureship in medicine and \$170,000 from three other benefactors; and Leeds has an anonymous gift of \$50,000 for the erection of a school of agriculture. In Germany, \$2,000,000 has been subscribed for transforming the scientific institutes at Frankfurt-am-Main into a university, and the University of Hamburg is to start with an endowment of \$6,250,000. In the case of Hamburg, however, the money has been entirely appropriated by the city.

FOR CHRISTMAS.
